I'm sitting here all alone
Thinking bout what went wrong
And now I see, I've realised
You don't know what you've got til it's gone

Chorus
Whenever you go away,
I'm wishing you back again
I'm lost without you,
I can't help the truth,
That I gotta find a way,
Gotta find a way back to you

Whenever you go away,
I'm wishing you back again
I'm lost without you,
I can't help the truth
That I gotta find a way,
Gotta find a way back to you

Ooh ooh ooh
Gotta find a way back to you
Ooh ooh ooh
Find a way back to you

If only I could turn back time
I'll take the wrongs and make them right
I've only got myself to blame
I know I've done a little too late

Rap
Yo I can't stop thinking about you
The lonely nights I didn't want to pull through
My times ticking by on my mind as I wake
Regret it all now as I try to relate
I try to debate and argue
And ask myself why I let you slip away
Now my whole world's changed
If I got you back it would never feel the same
I know you feel the pain that I feel about you

I want you back
I want you back, back, back

Chorus
Whenever you go away,
I'm wishing you back again
I'm lost without you,
I can't help the truth,
That I gotta find a way,
Gotta find a way back to you

Ooh ooh ooh
Gotta find a way back to you
Ooh ooh ooh
Find a way back to you

I want you back
I want you back, back, back

Chorus
Whenever you go away,
I'm wishing you back again
I'm lost without you,
I can't help the truth,
That I gotta find a way,
Gotta find a way back to you

Whenever you go away,
I'm wishing you back again
I'm lost without you,
I can't help the truth,
That I gotta find a way,
Gotta find a way back to you

Ooh ooh ooh
Gotta find a way back to you
Ooh ooh ooh
Find a way back to you
