With you my angel
With you my angel

I put myself on my feet again
I'm losing my way
I've been waiting for so long
I keep my mind on my goals
Just for the future I need
Cos your already gone
I've been sitting around waiting
For you to come and knock on my door

It's alright, it's alright it's alright now
I don't wanna hurt no more
Baby tell me what is it for
I can't get over the wall
With you my angel
I've given it all
With you my angel

It seems the higher I get
With you my angel
The further I fall
With you my angel

My mind's in overload
I've got to take control
I'll give my heart and soul
Until I'm over the wall

I close my eyes and I'm free again
There ain't no stopping me now
I've been waiting for so long
It doesn't always add up
But I'm still working it out
Cos your already gone
I've been sitting around waiting
For you to come and knock on my door

It's alright, it's alright, it's alright now
I don't wanna hurt no more

Baby tell me what is it for
I can't get over the wall
With you my angel
I've given it all
With you my angel

It seems the higher I get
With you my angel
The further I fall
With you my angel

My mind's in overload
I've got to take control
I'll give my heart and soul
Until I'm over the wall

Until I'm over the wall

Inside outside baby come on
You know we won't stop moving til we're over the wall
We're singing inside outside baby come on
You know there ain't no losing
We'll get over the wall

Inside outside baby come on
You know we won't stop moving til we're over the wall
We're singing inside outside baby come on
You know there ain't no losing
We'll get over the wall

I can't get over the wall
I've given my all
It seems the higher I get
The further I fall

My minds in overload
I've got to take control
I'll give my heart and soul
I can't get over the wall

It seems the higher I get
With you my angel
The further I fall
With you my angel

My minds in overload
I've got to take control
I'll give my heart and soul
Until I'm over the wall
