

# Friday Night Fever

## "Felt Like Destroying Something Beautiful"

Visit "[Felt Like Destroying Something Beautiful](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'll take some more shots might as well  
It's Friday night and you are  
Hot as hell  
The writing's on the wall dear  
Can't you tell  
That you're the reason I'm here  
Cuz My hopes were high  
But you showed up with another guy  
So I'll drink some more  
The fact that you were with me  
The night before  
Just isn't settling

You try so hard I'm not impressed  
You look so good in that Leopard dress  
Did you wear that for me?  
Or was godliness  
The thing that got you  
Here with the other guy?  
He doesn't (other guy, do you) care bout the girl  
behind  
The pretty face  
He wants to take you home dear  
And have his way  
He'll do anything  
Just to take you home  
He'll tell you that he loves you if you'll  
Take off all your clothes (OH)

Just grab a girl and make her learn  
That she will get everything that she deserves  
You're out of reach,  
Now she's reaching out for you  
You've had enough,  
Just fight the urge  
You're giving up everything that you deserve  
For her  
She's out of your reach  
But you keep reaching out

You tried to talk to me  
Are you out of your mind,

Or are you confused?  
Didn't I just see your lips on his?  
Get out of my way cuz I'm kinda pissed!

I'm mad that you're not alone  
Because you told me that you loved me  
While I took off all my clothes  
Then you showed up with him

Just grab a girl and make her learn  
That she will get everything that she deserves  
You're out of reach,  
Now she's reaching out for you  
You've had enough,  
Just fight the urge  
You're giving up everything that you deserve  
For her  
She's out of your reach  
But you keep reaching out

We are drowning in the blood of our own hate  
But don't hate girl,  
Don't hate girl  
We are frowning in the shame of our own fate  
It's what we made,  
It's what we made  
X3  
\*plays through out\*  
(Are you scared?  
Are you lonely?  
Did I hear you screaming hold me?  
X2)  
Somebody take a hold of my hand  
It's gonna be alright  
Somebody help me understand  
It's gonna be alright...
