Mmm...you're fresh
Oh yeah
And I'm-a-digging the way you dress
You're my baby baby baby

And you're a dime
That's right
And Oh my God you're fine
You're my baby baby baby

So step up
Into the highest heels
And you'll see
That you're glamour kills me

So slip outside
The air is right
To spread our wings
And learn to fly
Lets live our lives
In colors so bright.

Oh,
You favor the sun
With your GK on
That's my baby baby baby

Let's think of a happier thought
So we won't grow up
You'll be my one and only baby

A step up
From being overwhelmed
By your love
And how your glamour kills me

So step outside
The air is right
To spread our wings
And learn to fly
Lets live our lives

In colors so bright

The summer breeze
Is all we need
To sweep us up
And off our feet
Lets live our lives
In colors so bright that we sing

Oh Gee
Okay
Your glamour kills
But in the best way
Oh Gee
Okay
When I sing, you smile at me

You look fresh,
Oh yeah
And I'm-a-digging the way you dress
You're my baby baby baby

You're a ten
Amen
And we'll be kickin' it til the end
Cause you're my baby baby baby

Lets live our lives in colors so bright.
