

Friendly Fires

"Bored of Each Other"

Visit "[Bored of Each Other](#)" on MotoLyrics.com

it's just you and me now
no cares in the world
we won the war
we killed them all

it's just you and me now
we stand here alone
and let's just hope
we don't get bored
of each other

let's just hope we don't get bored of each other
each other

it's just you and me now
we watched from afar
what's left to do?
i wish you knew

it's just you and me now
we'll ride
to our place
but let's just hope
we don't get bored
of each other

let's just hope we don't get bored of each other
each other
let's just hope we don't get bored of each other
each other

let's just hope we don't get bored of each other
each other
let's just hope we don't get bored of each other
each other
