"Favourite Song"

Visit "[Favourite Song](#)" on MotoLyrics.com

Wake up in the morning straight to the sunshine
Listen to the radio - my favourite song
Trying to find one certain book with an attitude
'Cause there are things which are just like you do wish,
After all

Come on baby please please turn it on
'Cause radio plays our favourite song
Oh, DJ, play that on and on
I wonder what I feel (I feel)
Come on baby please please turn it on
'Cause radio plays our favourite song
I loose my nerve tryin? to find the words
But no use - that?s all because of You

I would like my coffee black, just like black & white
I should speak all out in a same way too
All confusing feelings also like love & hate
'Cause I?ve been so patient but the situation
Stayed the same

Come on baby please please turn it on

When every word means so much
I can?t get you out of my mind
When every word means so much
You feel like this once in a life
Come on come come on baby please

Come on baby please please turn it
