Your love unrequited, I just can't stop giving
I'm lost, I'm departed, I can't keep on forgiving
My heart keeps on parting
It's the lack of the love I'm missing

I'm cold, I'm bleeding
So break free and give me release

I watch you disappear into the dark
Captured in your eyes, you left a mark
As I put away, it falls apart
Pull me back to earth
Pull me back to earth

You're a, an illusion, for your lies I keep on living
It's all my confusion, can't see straight I'm tripping
I'm hurt, I surrender
Put yourself in my position

I'm cold, I'm defeated
But I get stronger and stronger
This feeling is wronger

Pull me back to earth

I watch you disappear into the dark
Captured in your eyes, you left a mark
As I put away, it falls apart
Pull me back to earth
Pull me back to earth

Pull me back to earth
Pull me back to earth
Pull me back to earth

For a while
For long
For a while
For long

Pull me back to earth
Pull me back to earth

Pull me back to earth

Pull me back to earth

Pull me back to earth
