Everybody knows a thing or two.
About the person closest to them in the room.
They've got it written all over their face.
Secrets so deep that they never ever will escape.

Every time you come around my baby.
It drives me closer to crazy.
Every time I see your smile,
It brings me down and down and down. Woah.

Don't give up on me my dear.
I have taken these vows with you.
Your damn smile is so sincere.
I have taken these vows with you.

Everybody seems to know the real you.
Give me a chance now like you're suppose to.
What did I do to deserve this behavior.
It doesn't matter just consider it a favor.

Every time you come around my baby.
You know, you know it's driving me crazy.
And every time I see your smile,
It brings me down and down and down. Woah.

Don't give up on me my dear.
I have taken these vows with you.
Your damn smile is so sincere.
I have taken these vows with you.

It's not the way she said.
It's the way she meant it and but I'll be right here,
I'm on my own.
It's not the way I said it.
And it's the way I meant it.
But now I'll be right here for you to call your own.

So listen up, It's time for me to bring you down.
And I'm not afraid of anything except that frown.
And we'll keep on pushing and fighting and doing
This all for the love.

But my heart's quite tired and it's all out of hope,
From being shoved.

It's not the way she said.
It's the way she meant it and but I'll be right here,
I'm on my own.
It's not the way I said it.
And it's the way I meant it.
But now I'll be right here for you to call your own.
