So here's the game plan, let's get started
Let's stop over-dramatic heartaches
Let's build time in certain spaces
And no matter how long it takes us
Let's get stupid, Let's get awkward
I'll never find another girl like you in my whole life
Never find a girl like you in my whole life

But it's safe to say I think I trust her
Someone tell me when it's

[Chorus:]

Over my dead body lies another lie untold and
I'm sold on bringing back, the very meaning of love this evening
Over my dead body lies another lie untold and
I'm sold on bringing back, the very meaning of love this evening

Lets skip the gameplan, lets get carded
Lets go warm up the cold hearted.
Lets glue smiles on their faces.
And no matter how long it takes us.
Lets be lovers, lets be fighters,
I've never met a liar, quite like you in my whole life

But it's safe to say I think I trust her
Someone tell me when it's

[Chorus]

Of love this evening...

[Chorus]
