One wish before you go
What's going down tonight?
Cause I'll be your friend or foe
Or we could start a fight
But you won't find out what's going down
It could happen to you it could happen to me
And you know it could happen in your own town

One wish before you go
What's going down tonight?
Cause I'll be your friend or foe
Or we could start a fight
But you won't find out what's going down
Cause it could happen to you it could happen to me
And you know it could happen in your own town

Remember the nights we use to hang out?
Make-out until our lips would turn numb
Then you smile at me and say
"I'll never be a super star and I'll never see a shooting
star,
But I just want to come home with, I want to come home
with you"

One wish before you go
What's going down tonight?
Cause I'll be your friend or foe
Or we could start a fight
But you won't find out what's going down
It could happen to you it could happen to me
And you know it could happen in your own town

So grab your coat it's getting cold out
We'll walk for miles until the sun comes up
And we'll dance the night away
Miles is just a single word that could never tear us
apart
And now I gotta come home with you,
I want to come home to you, I want to come home to
you

One wish before you go
What's going down tonight?
Cause I'll be your friend or foe
Or we could start a fight
But you won't find out what's going down
Cause it could happen to you it could happen to me
And you know it could happen in your own town
It could happen in your own town
It could happen in your own

One wish before you go
What's going down tonight?
Cause I'll be your friend or foe
Or we could start a fight
But you won't find out what's going down
Cause it could happen to you it could happen to me
And you know it could happen in your own town
