I wonder how you'd feel in daylight  
A million miles of memphis skin  
A heart from here to eternity  
And all that meat to keep it in  
Whatever makes your day  
I would  
Anything you say  
It's alright  
Thieving diva  
I don't give a damn  
Come down  
I see palm trees sand and haloes  
Every time you come and sing  
A glimpse of you and me  
In paradise  
Shame about the south sea thing  
Whatever that makes your day  
Whatever makes your day  
I would  
Anything you say  
It's alright  
Thieving diva  
I don't give a damn  
Come down  
You'd look heaven-sent to me  
A head like marlon in the wild one  
Just everything, everything  
Whatever makes your day  
I would  
Anything you say  
It's alright  
Thieving diva  
I don't give a damn  
Come down
