

Frightened Rabbit "Behave!"

Okay stop
Okay start
And please me, I don't care how
Stop me and please me now

Oh, with your mouth
Big bad ate in a prison room
He's just itching to telephone you
Oh, with his mouth

Behave, behave
I don't know quite how to behave

Patience, patience
Leaves me with a cross to bear
Leaves me, I don't know where
Then it leaves me out

Distance, distance
Oh, leaves me, I'm ashamed to say
I make a mess on the stage with my mouth

Behave, behave
I don't know quite how to behave, behave
I don't have a clue how to behave when I'm around you
Behave around you, behave around you
