I think about light, I think about lifting
That break up your mind, it's making me ill
I know it's not quite a custom in this country,
but if you never try, then you'll never know
no you won't
Therefore instead of pipes, i'm wearing your forearm
bleed the vein dry for?
head out in a hearse set up like a circus
so you're sinister at first, but there's dancing girls
this is me and my brother giving blood on the street
tonight
we are outside, it's art not the bloody Christ
knowing for a second what we want might never arrive
so so, don't be scared, don't be too shy, to even out
your good love
oh, drive around town with an idea, spilling your guts
love
...? you wanted in the first place
might just come your way, with shit you would not
expect
this is me and my brother giving blood on the street
tonight
we are outside, it's art not the bloody Christ
knowing for a second what we want might never arrive
