Love infectious wind we breathe
Fills up the portal that lust leaves

He yawns, she yawns as well
She yawns because she's bored
He yawns because he can't sleep anymore

They go out, fill their mouths with drink
And food so they don't have to speak
And in between courses they're gasping for air
So they yawn and look at their feet

She yawns, he yawns as well
She yawns because she's bored
He yawns because he can't sleep anymore

She yawns and he yawns as well
He yawns because he's tired
The girl that he slept with sleeps too soon at night
When she yawns she tells the truth

That the boy she adores is just a man she's contracted
to
And what of you and me, admit that you're bored
You're bored of electricity, I've had enough of love
It just ends with two yawns in unison
