Here are the monsters little toys?  
Once they were little girls and boys?  
Conceived an evil act that left a curse  
God's revenge his hideous birth!

On this island hidden from man  
Irma fears they wouldn't understand  
She keeps him in the cellar locked away  
But now with Mom dead? Humongous is free to play!

The boat is wrecked  
He snaps their necks  
Bodies to collect?

Dog carcass feast  
A malformed beast  
"Acromegaly"

In the basement, a shrine to Ma  
Corpses swing in this horrible abattoir  
In the woods Hugh hunts down two  
On the beach, he runs them through

Massively malformed hands pulp Carla's head  
They try to burn him up, but Eric ends up dead  
Sandy sets a trap, disguised as his Ma  
But that old trick won't fool Humongous for long?

They lit him up  
A firewalk  
He can't be stopped

His giant eyes  
His deformed head  
You'll soon be dead

It's loose? It's angry? And it's getting hungry?
