[verse]

If only I could turn back the time  
When all the words we say  
We can make it rhyme  
I just can't get you off my mind  
I can only smile when you were mine

[refrain]

I've been waiting for you all night long  
Gotta listen to your voice on the phone..

[chorus]

Could have been a perfect love

I'm still trying

I know you've lost your faith in me  
Now I'm crying  
I know I've been a such a fool  
I've been blinded  
Can we just get back to where we've started  
'Coz I miss your grip and I miss the way you kiss me

[repeat verse]

[repeat refrain]

[repeat chorus 2x]
