"Stand Up For Your Rights"

Stand up for your rights to be women
Stand up for your rights to be men, to be men
Stand up for your rights to be humans
Stand up for your rights to be gods
Uh-huh, huh, huh
People gonna stop ya
People gonna make you what they are
Which is sad and depressed
Stand up for your rights to be animals
Stand up for your rights to be vegetables
Stand up
You got to stand up
Well, lot of disrespect going down towards the
minerals
Just because you're a rock
Don't mean that you ain't got a big fat..
Love, love
Stand up for your rights
Stand up for your rights
Stand up for your rights or sit down
