We came together
For the very first time
You got right down
To my heart and soul
You were so charming
You were so sublime
Life carries us along in ways
We cant' control

U and Me
It's not for eternity
U and Me
It's not forever

I've been hurt

And you know it's not fair
I need more love
But it's all very confusing
That's not a mystery
About your love affair
That's too bad cause
I don't fancy that kind of thing

U and Me
It's not for eternity
U and Me
It's not for infinty
