Please tell me something  
How should I feel  
It was only yesterday I saw her  
Wish I could see her  
Wish we could see her again

They decided they would leave a few days early  
The weather here was getting old  
And it's funny 'cause I thought  
That she would keep him safe  
Safer than she was  
Safe to come home

Chorus:

I can still see them  
Saying goodbye, see you soon  
I can still see them  
Cleaning out that empty room  
And I feel lucky despite this loss  
'Cause she is safe at home  
And he is here to carry on

Sometimes I wonder  
If the choices that we make  
Are really ours  
Got a letter yesterday  
But no one talks about it
