verse:

missed my chance ... change my way
i know it happens every day
in my head
in my way

verse:

felt like i was standing still
moving inside wasn't real
in my head
in my way

chorus:

but i feel different now
yeah i feel different now

verse:

and you would say it's only life
and i would say that's just not right
in my head
in my way

verse:

and you would say it's only life
and i would say that's just not right
in my head
in my way

chorus:

but i feel different now
yeah i feel different now
