[INTRO: Odario]

Later on in the night. The Mood Ruff and the Hummers
collabo. We unite and
get ourselves together. We got to let them know. We
got let those people
know. Yeah, we ready boys? Yeah, let's do this. Yeah

[Odario]

Come on, 000-0000

Buckle up and come ride with us (what?)

Madman vocalist, connection (uh)

Take a glance up on my vision

When I grab the microphone, satisfaction

[Spitz]

Guarenteed, yes indeed

I got the ill flow to make your eardrums bleed

And I shall proceed and continue to rock any venue

I step into, who knew?

I grab the microphone and the speakers blew

That's night nice

Better think twice

Cause stiff rice if you grab the mice device

[Odario]

Check it out, what ****Overlaps with last line****

Precise on the freestyle

All the while, the funky chld in the studio

It's Odario with the ill flow

My man right beside goes by the name of Maxmo

[Spitz]

Watch me pass go

Collect my two hundred dollars

Give it back to holla to the people I respected

Bub, Susan Johnson, watch the dog get elected

That's right I connected to all my people, that's right

Check for the sequel

Mood Ruff part two

And I bust through any MC or any crew

[Odario]

Part three is me, mad energy

To come to your town

Give pounds to the brothers in the underground

Check the new sound
It's a Mood Ruff collaboration
Across the nation, with the Hummers
The funky drummers, the bass and the guitar
We gonna go far, like shooting stars
Don't even try this, I leave ya scarred. What
[Spitz]
Scars that won't heal
Got mass appeal, Mood Ruff, the real deal
I know you feel waht I feel
When I spill lyrics
And that's ill
Hope you hear it
[Odario] Hope you hear it
[Spitz] You know the deal

[OUTRO: Odario]
Delivered to the people across the nation, y'all we're
reprising. Without a
hook, we'll save that for later. Uh-huh
[Spitz]
Just freestyling you know. That's what it's all about, just
having some fun
[Odario] Yeah
Something nice
Big ass band
