I'm on the top, with the job  
Jumping to my death  
Its Paris the Tower Eiffel  
The sexiest building left

I've been waiting here for far too long  
I look around for something strong  
My heart beats on and on  
And suddenly I can't think clear

Getting close I sit close to you  
Suddenly I fear and fear

I feel sexy up so high  
Feel my treasure chest  
Let's have sex before I die  
It will be my sexual best

I'm waiting here to be saved  
By someone strong and someone brave

What I feel my legs grow weak  
And my voice it starts to squeak

As I look the ground grows near  
As I dance I fear I fear

I'm cumming! I'm cumming!

I love you Eiffel Tower you've got something I  
admire  
I love you Eiffel Tower falling leg around your spire

I feel sexy sexy Eiffel Tower  
Makes you feel too revered after many hours

Hold my legs my body hold me  
All my life my one and only
