It's 3 o'clock and we are waiting for it to rain  
And I'm planning our escape  
To the places we can go  
To the shores that we call home

Well surly we can make it out of here  
You know that we will never be clear  
Of the feelings they all harbor  
Well, yea I'd rather not bother

Do you feel lonely  
All the time

If you'll come with me. well, then I can show you  
That the lives we lead could be sure and true  
And if you take your time to look around you'd see  
There's nothing wrong with me that hasn't already  
been seen

There's nothing wrong with me  
There's nothings wrong with you  
There's nothing wrong with us, I'm seeing through  
Nothing's wrong with me that can't be traced to you  
I've folded in my heart, I'd waste it all for you

Do you feel lonely?  
All the time
