

From Autumn To Ashes "Abandon Your Friends"

Young women and young men
Forgive us if you can
Abandon your best friends
Demanding, detriment

Leaving your lover home waiting
Putting much faith in her patience

Don't fool yourself it's not endless
Phone calls are poor consolations

We've abandoned our best friends

Leaving your lover home waiting
Putting much faith in her patience
Don't fool yourself it's not endless
Phone calls are poor consolations

We've abandoned our best friends
