[x2]

It's days like these, that make me feel,
like I want to bleed through my heart again.
It's days like these, that make me feel,
like I might as well be on my own again.
I take back everything I said, about loving you.
Now that you've left me on the ground,
I can fly away to someone new.
Don't pretend like I don't know you're untrue.
I never meant to bring you
(down)
Nothing but good
(intentions)
I never meant to bring you
(down)

[x2]

Take it back,
(Take it back)

This time.

(This time)

I'll just move on.

I'll just move on.

[x3]

Take my heart,
(Take my heart)
Make it gray,
(Make it gray)
I'll never forget.
(I'll never forget)
