Whisper sweet nothing's into your ear  
The kind I knew you'd always want to...  
Oh wait but I was wrong  
You sold me out so fast  
Quickly inditing me into the shit that is your past

Today you said, you said it's over  
At least I'll start aging slower  
Oh well lemme guess  
You're gonna fuck my friends, OD, and call me from  
the hospital

You don't need to tell me what you're always wanting  
I think it's too obvious  
The scraps across the floor of self indulgent nonsense  
Feed the ego with the shit that you fear  
But don't you count me out before I get  
The last word in. Let's not pretend  
I'll go without a fight again

Time and space  
You said you wanted  
Time and space  
You said you needed  
Time and space  
I never knew you were a physicist

This time I swear I won't be gone  
This time I know I won't be wrong
