She knows when the Devil
Starts a burnin' fire inside of me
She knows how to take the heat
How to take the heat away from me

When I need it
When I need it
When I need it
She's there to cool me down

When I need it
When I need it
When I need it
She's there to cool me down

She knows when I've had too much
Still the devil's hand is tempting me
She knows how to speak to me and tell me
You know some things are not worth the trouble

When I need it
When I need it
She's there to cool me down

When I need it
When I need it
When I need it
She's there to cool me down

And it feels like
She knows when I'm feelin' like
My world is at a desperate end
She knows how to comfort me
She is there for me
She points me toward another day

When I need it
When I need it
She's there to cool me down

When I need it
When I need it

When I need it
She's there to cool me down

She cool me down
She cool me down
She cool me down
