Stomach slashed and the rat is resurrected cold blades
are yielding the higher infant flesh all is dead and
speechless and he screams to burn the bitch cut her
from her face the face to the ass oh wet skin beneath
my fingernails apocalyptic messiah in human flesh i'll
coat her face with shit and blood its a cruel worlds
vengeance on the commoner of life its a marriage of
whores and snakes sea and the serpents kiss so alone
in this world of shit and the sparrow bleeds a trail of
blood through the night and the old man dies burned
her face and pray for credence as you kneel before
your kings world smiles as all will die with all their
swollen macho pride of all the zionist who cried for a
savior savior staring into the sun but i live and die for
one i am your lord i am the only light
