"Tiny Voices"

Visit "[Tiny Voices](#)" on MotoLyrics.com

i've been all pinched up since saturday
i've run my self dry of excellence
16 long years in-hale the bullshit in
whatever i said on saturday
whatever i did i'll do it all again
19 marks up walls
each year one short fall of

tiny voices, make things harder
everybody will be let down
everybody will be let down

what is this for ex-parking lot
the dreamers go buy they never stop
20 plus 5 in let the youth cave in
tiny voices, make things harder
everybody will be let down
everybody will be let down

tiny voices make things harder
tiny voices make things harder
everybody will be let down
everybody will be let down
everybody will be let down
everybody will be let down
