

From The Top "My Attention"

Visit "[My Attention](#)" on MotoLyrics.com

Don't you dare slow down you've got the world to
change
I know that this hurts now, but you won't stay the same
Caught my attention with just one glance
And when my eyes close I'll see you there
Don't let go, Don't lose hope

Let the love mix with grief let us see what we need
When we break at the scene lets remember to bleed
Caught my attention with just one glance
And when my eyes close I'll see you there

Don't you dare burn out you got to light the way
I know that it's dark now, but the night won't stay
Don't let go, Don't lose hope

Let the love mix with grief let us see what we need
When we break at the scene lets remember to bleed
And just stay with me

Don't let go, Don't lose hope
