1-1-2029, the stars are shining bright

Nerves connected to the center, we are tied to the machine

Invisible and silent, circling overland

The planemakers designed it to outturn and outmaneuver

Intruders in the skies, intruders in our skies

1-1-2029, tonight the stars are shining bright

Backbone of the fighter force of the defense industry

Devoted tools of the power, warrants of the order

1-1-2029, tonight the stars are shining bright

Invisible and silent, we're circling overland

Circling overland, circling overland

Silicon advisers leading the way

We reach our cruising altitude

1-1-2029, West Europe, midnight

Invisible and silent, circling overland

Scanning, taping, filing, instantly checking

Every human, car and plane of the quarters we survey

1-1-2029, 2029, 2029
