It flies  
The U-Fly gets in your ear  
The U-Fly gets to your brain  
The U-Fly sticks on your nerves  
Grips on your blood pressure  
Drives you to more pleasure

U-Fly magic touch on your head  
Down to your tips  
Now start to move and dance  
Now start to groove in trance

Stand up, you electronic insect  
Stand up, you electronic force

No sign of mortal bite  
Just keep on flying, all right!

Now, you're an electronic insect  
Now use your electronic force

Blood pressure  
More pleasure  
It flies
