I'm the guide of the lost
I'm the guide of the lost

Let's party

I'm the friend of the weak
I'm the man of the [incomprehensible]
From underneath the cowl
I'm staring at your soul

I see it black, I see it small
I feel the weight of the sins you haul
I'm the trusting friend you need
You're the open book I read

I'm here to save you
(I'm here to save you)
I'm here to save you

I'm here to save you
I'm here to save you

I see you sail night and day
On a sea where the waves
Always force you back
Always force you back

It won't take me more than one strike
To release your soul from the cares of life
I'm your guide through the night
Through the night to the light

I'm here to save you
I'm here to save you

I see you sink deeper down
In an ocean of pain
Always force them down
Always force them down

You shouldn't be afraid
I'm your everlasting mate

Always force them down
Always force them down

Always force them down
Always force them down

A voice pierces your ear
My words enter your brain
I'm here to save you
