Mindless human faith lays naked there to waste  
Neurotic choking eyeballs, fuels paranoid crazed cells  
Slide into darkness, slither down the shaft  
Slide into darkness, slither down the shaft of hell

Movements mirror his subjects  
Shifting through the lens  
Dirty shadows dissipate dissolve into myself  
Slide into darkness, slither down the shaft of hell

Sterilize all contact points  
Inhale if you want to breathe  
Dirty poison oxygen, delivers Shiva need  
Sterilize all contact points  
Inhale if you want to breathe

Sterilize all contact points  
Inhale if you want to breathe

Dirty poison oxygen, delivers Shiva need  
Sterilize all contact points  
Inhale if you want to breathe

Sterilize all contact points  
Inhale if you want to breathe  
Dirty poison oxygen, delivers Shiva need  
Sterilize all contact points  
Inhale if you want to breathe

Body parts bleached  
Amputated feelings  
Fluid core dismembered  
Dissolved into abyss
