Just for the moment you touched the bars
Just for the moment you grazed sweat from your face
Revolution time will reach the crowd
Revolution time is coming

System of values will soak up our blood
Just for the moment-won't happen again

You're standing by me, I'm going down
You are yourself now, I'm on my knees
Witnessess will never see the heaven's gate
They will never see the paradise
Witnessess of defeats won't see the sky

Just for the moment
For the last moment

Attack
