"Long Way From Hell"

Visit "[Long Way From Hell](#)" on MotoLyrics.com

It's a long way from Hell
There's nobody, I've been there myself
Just the prayer opens up your eyes
Filthy world

Satan used to guide my hand
I could do anything, even kill
I don't want to. Take me back home
It's a long way from Hell
I want to be back

You're gonna pay for your own sins

Return
Return
Return from the gates of Hell, behind the bars
Return from the place where you knelt down

He used to guide my hand
He used to guide me

Opened eyes too close to my lips
Opened eyes, they lie too much
