Burn like me!  
Burn!

Hatred is like the wine  
Agression is the bread  
We want to see your sweating body  
I see the hearts still burning, still burning in our chests  
Your eyes are seeking the revenge

Bloodstained body  
Bloodstained body

So let us join his last supper  
Take the chalice of his sins  
So let us join the ceremony

Hatred is like the wine  
Agression is like brad  
And cut off heads are falling down  
And now your heart is burning, burning stron in the  
chest  
I wanna taste your fucking blood

I see...  
Bloodstained body  
Bloodstained body  
Bloodstained body

So let us join his last supper  
Take the chalice of his sins  
So let us join the ceremony

The heaven's pleasure-you will never find them
