f/ Tierra

[Rudy Salas]

This is Rudy Salas  
With a Tierra, Frost collaboration  
Tonight babygirl  
Yeah

[Frost]

Even though I still roll with the homies  
I'm totally yours, and you're my one and only  
Always be there for you, never leave you lonely  
Tierra please could you sing it for me (I'm still here)  
How can I make you understand that I want to be your  
man  
Late night walks in the park, or the beach in the sand  
Holding hands, Tierra sing it again (I'm still here)  
Life without you ain't fair to me, no one in the world  
ever cared for me  
You're the only girl that was there for me, you're like  
the air I breathe  
(I'm still here) when I ain't with you I miss you  
Mi corazon, every night before you go to sleep  
I'ma tell you that I love you and miss you mi amor (I'm  
still here)

[Frost]

Yeah, you know I love you girl  
Frost'll never leave you baby

[Chorus: Tierra]

I'm still here  
After telling you, so long

[Frost]

Frost and Tierra

[Frost]

When I first met you back when I was minor  
I was still stacking and macking on hynas  
On the fast track for a fat stack of dollars

Black Stacy Adams and a nice Impala  
Seen you walking down the street, stopped and  
hollered  
Hey sweet thing can I talk to your mama  
Really wanna kick it with you, dig your estilo  
And we ain't even gotta keep it on the d-low  
Let the world know you're my girl tonight  
And if I make you my wife it'll be for life  
Started off right, long conversations  
Late night phone call infatuations  
Got a Love Jones, call the radio station  
Told Art Laboe to play my dedication

[Frost]

Yeah, is this the Killer Oldies Show  
Hey yo, this is Frost  
I'd like to dedicate Forever My Lady by Jodeci  
And hopefully like Tierra we'll always be together baby

[Chorus]

[Frost]

Yeah, from the bottom of my heart babygirl

[Frost]

What means the world to me  
My girl, my kids, my family  
No matter where I go, far or near  
Even when I die, my love is still here  
Is it true true love never dies  
Do you believe in love at first sight  
The first time that I seen you girl  
I knew that I wanted you to be my wife  
And that's for life, es por vida  
Mi amor, I love to mira  
I ease your pain, take it easy  
Bring you joy if you was my breezy  
I ain't running game girl, please believe me  
Never disappear like the great Whodini  
I'm still here any time you need me  
Sincerely yours Mr. Frostalini

[Frost]

Yeah, what's up green eyes  
I got nothing but love for you girl  
From the bottom of my heart  
I'ma always be here for you

[Chorus x2]

[Frost]

Yeah

[Tierra]

I remember

I remember

How we used to play shoot em up, shoot em up

Bang bang, bang bang

I remember

I remember

How we used to hit em up and down, front and back,

side to side

Baby

[Frost]

Yeah, what's up babydoll

Look at me

Look in my eyes girls

Frost'll always be here
