I don't want to
But still I do
You don't want to
You never will, thats true

I don't understand
But still I see
Cause I have realised
Its just a game between you and me

And all I can say
And all I can do
Is to make you see that
I'm sorry for loving you

I just feel like
Hiding away
You just feel like
You and me (You and I)

I just don't know how
How to get by
The game is over now
And no good to me
There's no use to try

And all I can say
And all I can do
Is to make you see that
I'm sorry for loving you

I'm sorry for loving you...
