Feels Like Over (x2)

I've got this window on my wall  
When she lights up I see it all  
The now and then  
The yet to be  
So I get up up then round  
Then we're free.

(Chorus)

Lost in time  
I find you're all I want  
This time rewind  
Or come undone  
My pocket sun

Feels like over(x2)

I went to Rome and watched it burn  
Once round the world we've missed  
I've found I've fallen out my family tree  
Now my Great grand-daddy is me

Chorus(x3)
