"Joyless And Soulless"

The industry of felicity
A chemistry set upon

Joyless
And soulless

A mind, your mind the shores of your life
Between oh in between you and your heartbeat

When instinct and grimness
Are the only solution
Total blackness and isolation
Just an act of compulsion
An empty and long journey
Deep unto me

The industry of felicity
A chemistry set upon
Your mind is my mind I know youre dying
Between oh in between you and me.
Bizarre my favorite solution
Deep unto me
