Bye bye baby
Don't be long
I worry about you
While you're gone

Bye bye baby
Don't be long
I worry about you
While you're gone

I think of you in my dreams
You never know
Just what you mean
To me
To me

Bye bye baby
Don't be long
I worry about you
While you're gone

Bye bye baby
Don't be long
I worry about you
While you're gone

I think of you
Night and day
I never know
Just what you meant
To say
To say
