Voice, you hear this cry
Last word which I understand
She dies for your love
She comes from this earth

Comes back from beyond
Sand and dust around
She dies for your love
She comes from this earth

Comes back from beyond
Sand and dust around
With your faith in your eyes
Emptiness all around

Comes back from beyond
Sand and dust around

With your faith in your eyes
Emptiness all around

Then she feels darkness
Peace and silence

Flames burn in my empty soul
Goddamn pain, on my own
She disappeared
In black cold night

Comes back from beyond
Sand and dust around
With your faith in your eyes
Emptiness all around

She said take me away
And remember, we shall meet again
