You and me, we could conquer the world
Cause I'm in love with the child in you girl.
Smiling at me I know that she cares
And my fingers stroking your hair.

And I know this means one thingÂ...

I belong to youÂ...
Yes I belong to youÂ...
Oh

In my mind I'm beside you
And now I know I'll never turn blue.
I want you now here by my side
When you're there with your arms open wide.
Oh I belong to youÂ...
I belong to youÂ...
I believe it's true
And I belong to you.

(Break)

I belong to youÂ...
Yes I belong to you.

Holding hands, beating hearts together
And now we make every day last forever.

I belong to youÂ...
You're more precious than life itself andÂ...
I belong to youÂ...
