I know which way is up,
I know which way I'm headed.
I know which way is down,
But my world is spinnin' 'roun and 'round

Baby, I know.
Baby, let's go.
I know that we're just friends,
I don't wanna see it end.
I know, I know, I know.
I know, I know.

I know you found someone else,
But I know that time will tell.

I know, I know, I know!

(Break)

I told you how it feels,
Now I'm the one who has to heal.
Now I'm feelin', all this pain,
Because you treated me like a game.
I know, I know, I know.

Baby gimme another chance,
I know I'll show you true romance.
