Breached in straight lines
Asked to stop
Tunnel vision
Wasted up
We got lost
We found ourselves
Surrounded by things
Getting closer
All around us
Blinding lights began to set fire to our minds
Long directions mixing up
Points of reference bound and stuck
Talks to nothing falls apart
Constant questions from the start
We got lost
We found ourselves
Surrounded by things

Getting closer
All around us
Blinding lights began to set fire to our minds
I don't want to be myself
What's done is done
What's done is done to me
What's done is done
What's done is done because
We got lost
We found ourselves
Surrounded by things
Getting closer
All around us
Blinding lights began to set fire to our minds
