Alice and Ivy In fights with Police,
There's a place round the corner I know
They took a turn,
And went the right way.
And they came and they hid in my show.
You Look Lost
Let me know where you want to go.
And then they cut our hair,
What a wonderful world,
What a wonderful world.
Then we had Clothes to wear.
What a wonderful boy,
What a wonderful girl, Said Alice and Ivy,
We're looking for surgeons, It really is time that we go,
They took a car,
And went to London,
And came to the Hospital, O,
You Look Lost Let me know what you want me to do.

And then Alice said she wants to be a girl
Feeling Hungry?
And the doctor said
Just eat this chocolate
And then Ivy said she wants to be a boy
Eat this chOcolate.
And the Doctor said
You're doing Fine
Ivy was a child,
She drank from straws,
She went a walking with the doors locked.
Alice was a devil,
With ivory bones,
HE had a shotgun it was sawn off.
Ivy drank testosterone,
And wanted just to be alone,
She said I will be a man one day,
Alice ate progesterone,
And just wanted to be alone,
He said I will be a girl one day
