I want to smash your house, I want to scratch your car, I want to fuck your wife, I want to wreck your life, I want to hear you snap, I want to feel you fucking crack. I dont like the world today; Im going to rebuild it my way. Im a man, I am society, I dont like you so Ill turn you into me. You cant stand the sight of me and all the pain I bring. I'll tell you what its like to fucking hate your life now you think things like me and youre never gonna fucking be the same. We fucked up all your plans, youd better give up man. You ruined life for us; well ruin life for you. so now you gotta learn its for the best Ive heard. it only hurts for a moment, the baiting of the public.

Shout, cry, scream, ask why you feel like shit. Cause your gonna die.
