Never thought I'd be this way  
Hung on every word you say  
Scars that you gave to me  
I earned all too eagerly

'Cause down inside of you  
Deep inside of you  
Down inside of you  
Is all of heaven and hell

Everyday is all the same  
Take the pleasure with the pain  
Things that you put me through  
Never is enough for you

'Cause down inside of you  
Deep inside of you  
Down inside of you  
Is all of heaven and hell

So I'll fly  
Find another life  
I know somewhere it's right  
So why can't I forget you

'Cause down inside of you  
Deep inside of you  
Down inside of you

'Cause down inside of you  
Deep inside of you  
Down inside of you  
Is all of heaven and hell  
Yeah yeah
