Give me one good reason  
To why you're so blind  
I covered your back again  
And you better cover mine

If I turned and walked away  
Would you stick your knives in me?  
How much longer till you break  
Until I walk away, walk away from you

Give me one good reason  
To why you're so unkind  
You know I believe, believe it's tru  
You know I'm leavin' you  
Oh

If I turned and walked away  
Would you stick your knives in me?  
How much longer till you break  
Until I walk away, walk away from you  
Walk away

If I turned and walked away  
Would you stick your knives in me?  
How much longer till you break  
Until I walk away from you

If I turned and walked away  
Would you stick your knives in me?  
How much longer till you break  
Until I walk away  
Walk away  
Walk away from you
